

January 2017

Next Month's Meeting Will Be Monday, February 20, 2017 at  
*The Incredible Pizza Company*, 1245 N. Germantown Parkway at 7pm.  
Come as early as 5:30 for dinner.

*Happy New Year!!!*

2017 looks to be an exciting and fun year! The Memphis Classic Chevy Club officers are working on many upcoming events. There will be lots of options and opportunities to get those beautiful vehicles out and show 'em off!

We had our first meeting of the year on January 16 at The Incredible Pizza Company located at 1245 N. Germantown Parkway in Cordova. We had a great turnout, great food, and plenty of space for everyone.

Our new president, Burt Milam, laid out his plans for the upcoming year as well as his goals for MCCC. He particularly wants to increase the membership, paid sponsorships, participation at the cruise-ins, club activities, and car shows. The members get to have fun and the kids at the Tennessee Baptist Children's Home receive blessings as well!

Burt has appointed a committee to review our bylaws. It will be chaired by Jim Cohen.

### Upcoming Events

Memphis Classic Chevy Club is in the process of finding a new cruise-in location. While the Café 4210 on Alturia locations was nearly perfect, it didn't have the high traffic that is needed to grow the club. Monik Williams at Café 4210 did a fabulous job making us feel welcome and having some of the best burgers in town.

We encourage you to eat there when you can!

It is truly a challenge to find a parking lot (with multiple eating establishments) whose owners are willing to accept the liability of having a lot full of classic cars. We think we have found a great location on Stage Road and are awaiting the final approval from the owners. We will get the word to you as soon as we know!

Cruise-In season is March thru September, weather permitting. We are hoping to get started in just a couple of months!

Several car shows and events are in the works. Here are a few:

'56 Chevy 210 2-Door Post

700R4 Transmission

Restored 2005-2008 350 with F.I.

Acquired August 8, 1981 and again July 26, 2015

Jack found this Chevy in 1981 a couple of blocks away from where he was living while attending Harding University in Searcy, AR. He had noticed it hadn't moved for several months, so he thought he would inquire about it and knocked on the homeowner's door. An older lady answered the door and invited him in. She told him she had owned the car for 18 years, but the car was not for sale. About a week later he saw the car for sale at a gas station just a few blocks away from her place. The asking price was \$750 and he bought it. He never found out why it became available a week later! He is the third and sixth owner of the car, and has met all the other owners.

The '56 was a 210 2-Door Sedan with one option - a radio. A six cylinder and column shift car, it had only 72k miles on it in '81, which is about 2,880 miles per year driven. It was his daily driver for four years. With paint getting bad and cracking, it was painted black in 1986. In 1995 a V8 was put in after sitting for about eight years. He sold it in '97 to former MCCC member, Mike Rudd. It had about 92k miles on it.

The next two owners, Mike Rudd and Sonny Cannady, did all the restoration and paint and gave it the look it has today. It now has an F.I. throttle body setup, a 700R4 transmission, Flowmaster exhaust system, A/C, tilt, cruise, 4-wheel disc brakes, master brake cylinder, am/fm radio with power antenna, Dakota Digital Dash, and an upgraded interior fabric and materials.

Through a chain of events and being in the right place as the right time, Jack was able to buy his car back. It is a fascinating story. Be sure to ask him about it!
